Categories: Red Category

Hi Jason, Elizabeth and Rob,

I received the Rosemont FOIA notification from Jeanne Geselbracht. Based on my email record, I have attached the only email/attachments that may contain substantive information. Since I sent the correspondence to you, it is part of your record too. I will let you decide whether it is substantive in terms of the FOIA request. I do not intend to submit any other records.

Please let me know if you think the matter needs further attention from me.

See you next week!

Rich

Hi, Robert,

You requested some information about the hydrogeomorphic methods used in Arizona. See the attached pdf for a description taken from a Corp restoration study for the Santa Cruz River in Tucson.

<http://rfcd.pima.gov/largefiles/pdli2/PDleis.pdf> The Paseo DEIS is posted here. It is the source for the above document.

But there is a final EIS. See EIS No. 20050477, Final EIS, COE, AZ, Santa Cruz River, Paseo de las Iglesias Feasibility Study, To Identify, Define and Solve Environmental Degradation, Flooding and Water Resource Problems, City of Tucson, Pima County, AZ, Wait Period Ends: December 19, 2005, Contact: Michael J. Fink 602-640-2001 Ext. 252.

http://www.usace.army.mil/Portals/2/docs/civilworks/CWRB/stacruz/SantaCruzRiverPaseodLI_Project_Summary_1-25-06.pdf This is a policy review of some of the issues that came out when the Corps reviewed the Paseo project.
